

### **SAMPLE QUESTIONS**

#### **PANEL 3: The Promise of the Pipeline**

Aracely Campa Ramirez, Executive Director, California Life Sciences

- What are current ways the life sciences are improving treatments in mental health?
- Where have we seen the most success with new treatments, and what new innovations are on the horizon?

Le Ondra Clark Harvey, California Behavioral Health Association

- What does it take to educate providers in the new and next in clinical treatments?
- What are ways the State can start preparing for when these treatments become available?

Dr. Kirlos Guerguis, Chief Operating Officer, Serene Health

- In what ways have you seen telehealth improve a patient's mental health? How many more patients are clinicians able to see through the use of telehealth?
- What are ways the State can continue to support telehealth access and outcomes?
