

California Legislature
STEVE BENNETT
ASSEMBLYMEMBER, THIRTY-EIGHTH DISTRICT

HYDROGEN- Pipeline Leakage, Safety, and Construction

9 am to 11 am on Wednesday June 19th in the California State Capitol, Room 126

Introduction and Opening Statements

Panel 1: Pipeline Safety, Leakage, Development, and Blending

- Erin Murphy, Environmental Defense Fund
- Neil Navin, Senior Vice President, Engineering and Major Projects & Chief Clean Fuels Officer, Southern California Gas Company
- Mark Mulliner, Northern California Regional Director, State Building Trades
- Dr. Arun Raju, Associate Director-Operations, Center for Environmental Research and Technology, University of California Riverside
- Andrew Connolly, Vice President and General Manager of Low Carbon Hydrogen Large Projects, Air Products
- Bill Caram, Executive Director, Pipeline Safety Trust
- Rinaldo Brutoco, Chairman and CEO, H2 Clipper

The committee will be discussing pipeline safety, leakage, and development (right of way and construction), blending in pipelines, and pure hydrogen pipelines.
