# Groundwater Rise and its Impacts on Contaminated Sites

A Bay Area Perspective on  
Protecting Communities from Contamination

Allison Chan  
Political Director

# Communities near 5,000+ sites at risk in the Bay Area

Palo Alto Baylands  
**SAVE THE BAY**

# How the State Can Help

## Funding

Restore the State Budget for Coastal Resilience to fund research, planning and implementation by DTSC, BCDC, OPC and SCCC

## Regional Authority

Give BCDC expanded authority to ensure local and regional planning incorporate best practices for sea level rise and groundwater rise resilience

## Transparency

Direct cleanup oversight agencies to develop centralized clearinghouse of information on all contaminated sites
